Note: Please be courteous and respect nearby users of these frequencies.

Please visit our [Sponsors](#) page to see the groups and individuals that make the Minnesota QSO Party possible.

New in 2012 - We are encouraging the participation of Minnesota ARES stations. These stations will use "ARES" as their name in the exchange. See the [MN ARES page](#) for information on a new certificate that will be awarded for the top ARES station.

Many of the mobile stations will be using APRS. You can track them with links on the [Activity Map](#) page or the [Mobile Operations](#) page.

We encourage the use of spotting networks. In addition to the normal DX Cluster sites you may want to try the [County Hunting Spots](#) site and the [Reverse Beacon Network](#).

The [Resources](#) page contains links to tools to make your contest experience better.
